Professional profile

Obtained my PhD in 2015, but teaching political science courses since 2005 at Bethlehem University. My teaching and research focuses on issues such Islamic studies, electoral systems, foreign affairs and democracy in different political, ethnic and societal contexts. Nonprofit organization Issues of cohabitation, imposed democracy, corporatism and consensus democracy and human rights are at the center of my research. Stability of political systems and their legitimacy are part of my research interest. In this regard, I can operate both of quantitative and qualitative methods in my research. Teachings different topics in M.A programs such as democracy, human rights, Palestinian studies, electoral studies South Asia political regimes, consensus and stability in their political systems, ethnic and cultural diversity particularly. Aside that, I have long experience in working within civil society organization as a founder, fundraiser, trainer and counselor in youth issues, marketing, political participation and democracy awareness.

Objective

I am looking for working as a lecturer in my specialized experience.
